

**ILFI**

Infrastructure Industry and Logistics  
Federation of India

***“A national federation of Indian business striving for the accelerated economic development of the country with a special focus on infrastructure and related industry and trade.”***

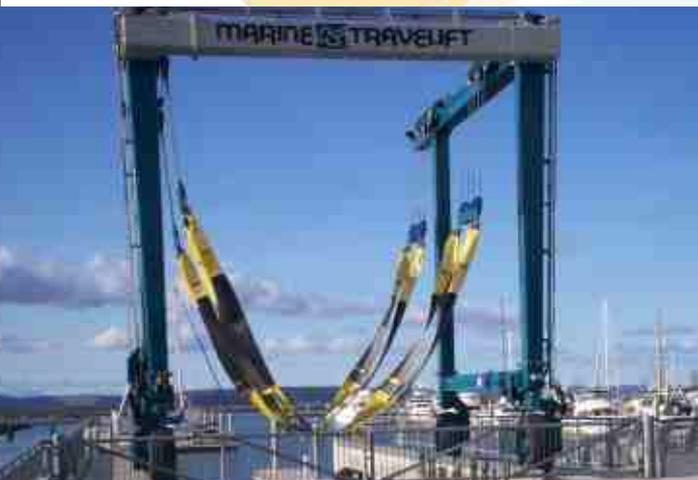

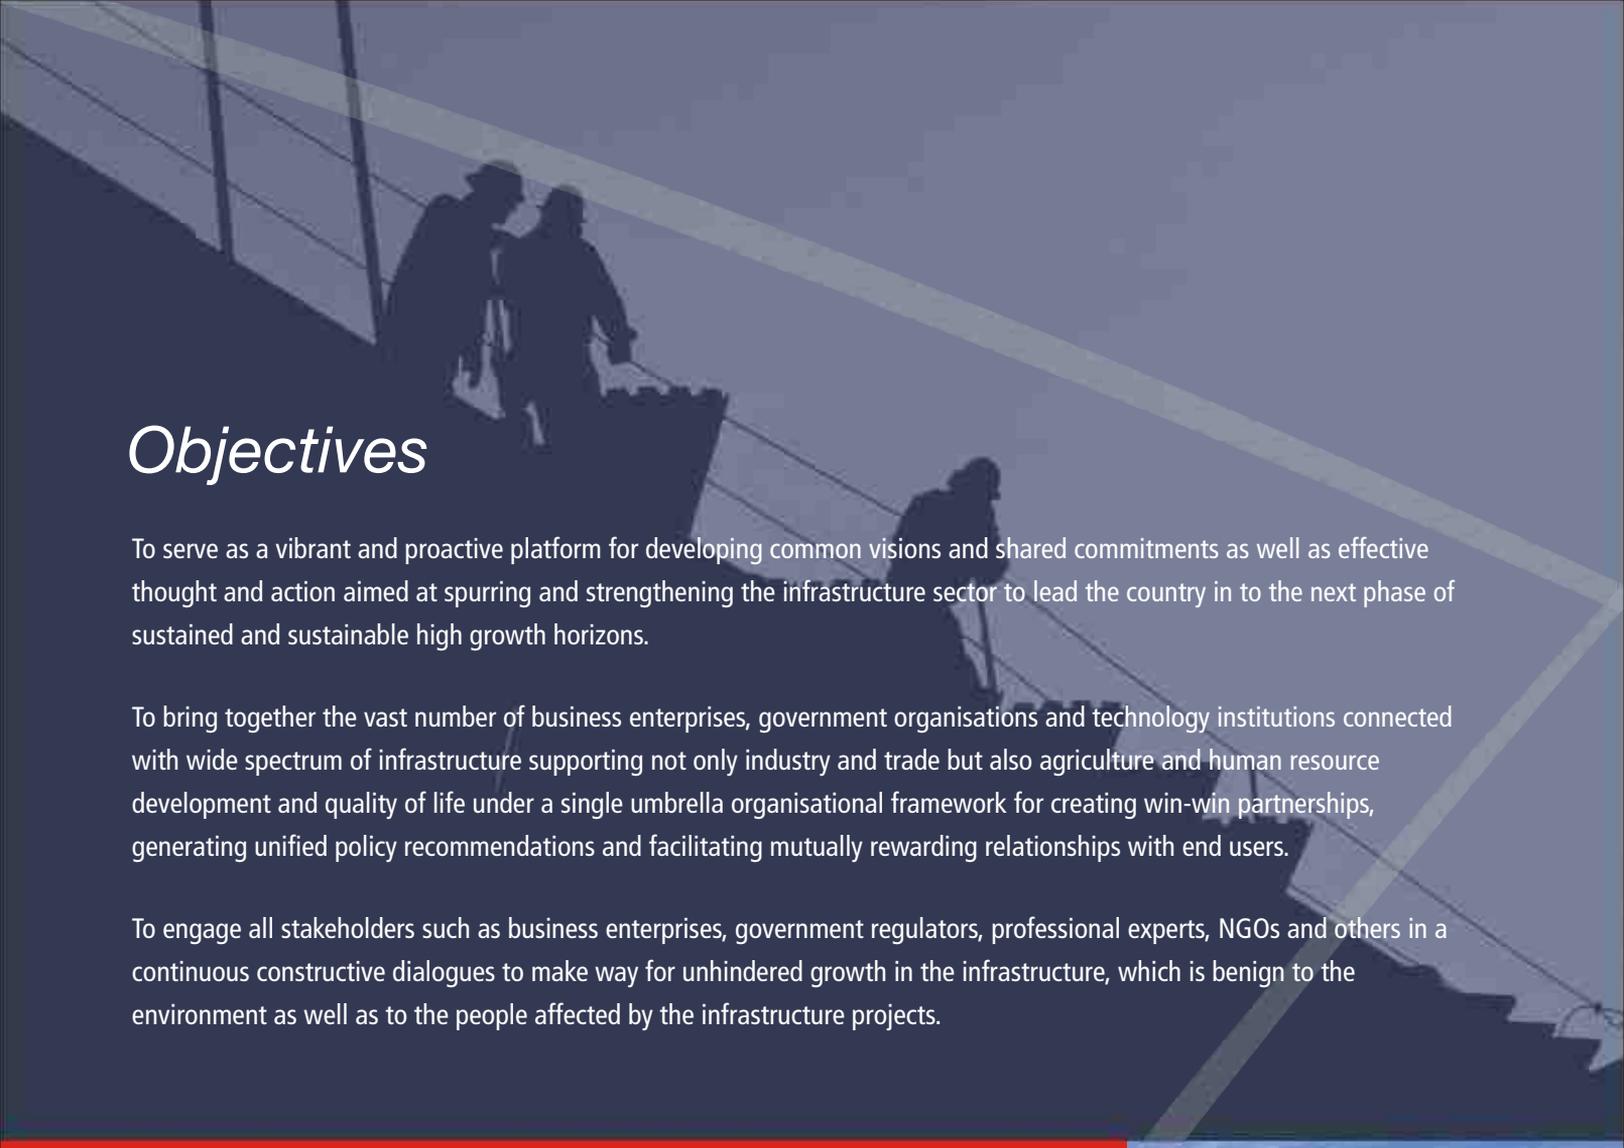

## About us

ILFI as a partner in the nation's progress, offers a range of services to governments and businesses in investment promotion, trade facilitation, government-business interfaces in global and national contexts.

ILFI is committed to be a proactive national apex organisation for catalysing the growth potential of Indian industry and trade particularly in the infrastructure sector. It focuses on enhancing the collective synergies in the ever expanding matrix of physical, financial, social and human resource development infrastructure enterprises to improve continuously the global competitiveness of the Indian economy and pave the way sustained progress of the nation.

By providing productive frameworks and mechanisms for interaction, consultations, information sharing and networking between policy makers, business leaders and knowledge creators ILFI aims at facilitating innovative government policies and business strategies that would help the country leap in to a higher orbit of growth and become the economic powerhouse that it deserves to be.

## *Objectives*

To serve as a vibrant and proactive platform for developing common visions and shared commitments as well as effective thought and action aimed at spurring and strengthening the infrastructure sector to lead the country in to the next phase of sustained and sustainable high growth horizons.

To bring together the vast number of business enterprises, government organisations and technology institutions connected with wide spectrum of infrastructure supporting not only industry and trade but also agriculture and human resource development and quality of life under a single umbrella organisational framework for creating win-win partnerships, generating unified policy recommendations and facilitating mutually rewarding relationships with end users.

To engage all stakeholders such as business enterprises, government regulators, professional experts, NGOs and others in a continuous constructive dialogues to make way for unhindered growth in the infrastructure, which is benign to the environment as well as to the people affected by the infrastructure projects.

## Role of ILFI

ILFI a not for profit, national apex business federation, which is the rallying point for infrastructure related industries, trade and services. It has a role cut out to act as a pre-eminent body that addresses the growth potentials of the infrastructure and related segments, takes due note of their concerns, challenges and wish lists and supports leaders in the government, business and intelligentsia in guiding this very large and vital segment of the Indian economy to progress and flourish. Its track record as an effective and efficient change agent is proved by its successful support activities for the investment promotion campaigns of several States in the country. Given that India needs over a trillion dollar investment in the infrastructure sector in the next ten years, ILFI humbly reckons its challenges to be enormous and time bound.

ILFI also perceives a pivotal role it would play in channelising globally adopted best practices and standards into Indian infrastructure and related services segments in variety of areas such as public private partnership models, contracting procedures, equipment sourcing and quality management, land acquisition and rehabilitation package, arbitration and dispute settlement mechanisms and balancing growth compulsions and environmental and quality of life imperatives.
